

# Let's get started! Go to [www.NYVIP.org](http://www.NYVIP.org)

## System 1 NYVIP2 Emissions Inspection Units

**Sign up and order early! As per NYDMV "It's extremely important that you respond in a timely manner".** Shops may be able to use the new NYVIP2 equipment prior to 12/1/13, but definitely not able to use old equipment after 12/1/13. It's easy. Go to [www.NYVIP.org](http://www.NYVIP.org) and follow the 3 step process below.

**Place your order by August 15<sup>th</sup> in order to guarantee delivery by December 1, 2013!**

Go to [www.NYVIP.org](http://www.NYVIP.org) now and follow the 3 step process below or call 1-866-623-8378 for further information.

### Step One: Station Account Registration

Register your Station to gain access to complete a Station Agreement, manage Station information and purchase NYVIP2 equipment.

- Your user name is the same as your facility number.
- Create a password.
- Your newly created account will allow you access to execute a participation agreement.

### Step Two: Sign Station Agreement

Complete NYVIP2 Station Agreement online to become eligible to purchase equipment for your Station.

- The station agreement is the contract between your station and Systech International, LLC.
- Your electronic signature (acceptance) will execute the contract.
- Choose your connection type of internet (broadband) or dial-up. It is highly recommended to use internet (broadband) over dial-up. (If you elect a dial-up, per DMV regulations it must be a dedicated line connected to your analyzer at all times. Dial-up is no longer toll free. Software updates over dial-up will take longer).
- Here you will complete Payment information. If using ACH, you will need your bank checking and routing numbers. This is needed to purchase your pre-paid test authorizations.

### Step Three: Order Equipment

Order NYVIP2 equipment online from a list of NYVIP2 products. New wireless options and cabinets are now available.

- We have put together four of the most popular NYVIP2 equipment packages for ease of ordering with prices and a financing option. Simply choose which package is best for you.
- Purchase or lease to own, you have the option.
- Your equipment will be delivered by UPS with setup instructions. Operating software will be pre-installed and peripherals will be plug-and play. A dedicated help desk will be available to assist users by phone.

*"I signed up and ordered my new unit early. Not only am I ready for the new program, I got the best options for my shop!"*

# ORDER EARLY! for Best Selection

**Don't be  
LEFT  
OUT!**

**Don't be left out!** Ordering early ensures best selection and seamless transition. It's easy, just go to [www.NYVIP.org](http://www.NYVIP.org), choose one of most popular packages and options by August 15<sup>th</sup>, 2013. A variety of payment plans are available. There you have it, **ordering early** is all that is needed for your piece of mind to have the best unit for your shop ready for the transition on December 1<sup>st</sup>, 2013.

**Wireless is the way to go!** Both NYDMV and Systech highly recommend a **Broadband Connection** to save the added cost of a dedicated phone line. We recommend the **Wireless Cabinet System**. It's our most popular system in Georgia and Pennsylvania due to ease of set-up, fast testing speed and maneuverability. **Any of the equipment packages listed satisfy NYS DMV equipment requirements under NYCRR 79.9(d)(2) for NYVIP Inspection Stations (Group 1A).**
